Celebrating Achievement & Growing for the Future

Welcome to the first of our new **quarterly school updates**! We're excited to give you a closer look at what's happening across PEB schools and how your support is helping students, teachers, and communities thrive. We're grateful to keep you connected to the people and stories you make possible through your generosity.

We had hoped to share an update on PEB's efforts to reclaim one of its nationalized schools from the Pakistani government, but we are still waiting for the court's final decision. **Please continue to pray for a favorable outcome and for the future of PEB's schools.**

There is always something happening across PEB campuses. From celebrating student achievement to preparing for new classrooms and strengthening school security, the PEB family continues to work together to create safe, welcoming places for students.

A New Administration Block

Progress continues on the expansion at Kinnaird Academy in Lahore. We are happy to announce **the new Administration Block is now complete**. The next step in this project is to fund and build the 9-Classroom Academic Block.

The school administration is currently packing and preparing to move into this new space. Once the transition is complete, the building will house the Principal's and Vice-Principal's offices, IB Coordinator's office, administration and accounts offices, a reception and waiting area, restrooms, and a kitchenette.

Moving these administrative functions into the new building will free up existing space on campus as PEB continues working toward creating **200 additional seats for students**. For 200 children, this expansion could mean something simple but life-changing: *a first day of school at Kinnaird Academy*.

You can help make more first days possible. Give today to support the Kinnaird Academy expansion and help create room for more students to learn, grow, and thrive.

Celebrating Student Achievement

On August 6, PEB gathered students, parents, teachers, and school leaders for the annual graduation ceremony. With an **88% overall pass rate on board examinations across PEB's 14 high schools**, this year's students demonstrated what can happen when hard work is met with quality education and a community that believes in them.

We are especially proud to celebrate PEB's top three students: Eman Fatima (CGHS Sargodha) with 1,166 marks; Silah Fatima (Kinnaird Academy) with 1,164 marks; and Areeba Atif (Kinnaird Academy) with 1,162 marks.

Behind every result is a student who persevered, a teacher who believed in them, and a family and school community that provided encouragement along the way. We are grateful to everyone who helped these students reach this milestone and excited to see where their education takes them next.

New Boundary Walls

Strengthening PEB Campuses

Security improvements are also underway at several PEB schools. New boundary walls were recently completed at PEB schools in Pasrur and are currently being constructed at Christian Girls High School Sargodha and Christian Girls High School Kasur.

At Sargodha, this work has become especially urgent. Recent heavy rains caused sections of the existing boundary walls to collapse, creating an immediate security concern for the school community. Repairs and reconstruction are now an emergency priority.

As part of this work, existing brick walls are being strengthened and rebuilt where needed, with razor wire added to further secure the campuses. Recent conflict in Pakistan has reinforced the need for these additional security measures. This is the next step in PEB's ongoing efforts to strengthen school security and create safer campuses where students and teachers can focus on learning.

Sargodha

Planning for the Future in Sargodha

Plans for a new academic building at Christian Girls High School Sargodha are taking shape. Recently, PEB leadership, school principals, and the ZOR Engineers team met on campus to explore the best location for the first phase of construction. After taking measurements and gathering input from the school and project teams, ZOR is now revising the architectural drawings for final approval.

Once construction of the new academic building is complete, a new playground will also be constructed as part of the overall building project, giving students a safe, dedicated space to play.

This is an exciting step forward for CGHS Sargodha. What is now in the planning stages will eventually become new space where more students can learn and have the opportunity to build a brighter future.
